<b>Total Number of Vegetables (M thru Z)</b>		_____	_____

**Alliums (open trays)**

All of the alliums are grown in open trays. These are large six pack size containers without any individual cells. We make two rows in each "six-pack" and sow about 25-30 seeds per row (total 50-60 seeds per cell). You will get at least 35-40 plants per pack.

<b><u>Vegetable</u></b>	<b><u>Variety, Seed Source, OG=Organic</u></b>	<b><u>Six-packs only</u></b>
Leeks (open tray)	King Richard (August-September), JSS, OG	_____
Leeks (open tray)	Tadorna (September-November), JSS, OG	_____
Onions (open tray)	Ailsa Craig, (huge, mild, short storage), JSS	_____
Onions (open tray)	Patterson (yellow, extra-long storage), JSS	_____
Onions (open tray)	Cortland (yellow, long storage), JSS, OG	_____
Onions (open tray)	Gold Coin (Cipollini, sweet taste, yellow), JSS	_____
Onions (open tray)	Pontiac (yellow, large, long storage), JSS	_____
Onions (open tray)	Redwing (red, large, long storage), JSS, OG	_____
Scallions (open tray)	Parade (early, white bottom, no bulbing), JSS, OG	_____
Shallots (open tray)	Conservor, JSS, OG	_____
<b>Total Number of Alliums</b>		_____

**Melons & Winter Squash 4” pot only**

### **Helpful Information (save this page)**

**Photos and more information about each variety:** At our website we have an interactive version of this order form with links to seed catalog websites. If you click on the blue underlined words for each variety, you will be sent to photos and descriptions of that variety at the seed catalog website we ordered the seed from.

#### **Seed Company Codes**

JSS = Johnny's Seeds  
 FED = Fedco Seeds  
 HMS = High Mowing Seeds  
 HAR = Harris Seeds

#### **Are there any crops you would like us to add?**

---

---

**Pickup Dates:** Friday, May 24th through Monday, May 27th from 9 am to 5 pm.

#### **What if I am gone Memorial Day Weekend?**

Call us at 529-2170 if you can't make it to the farm over Memorial Day Weekend. We can hold your plants for you.

**Directions to the Farm:** Check our website [www.goodearthfarmnh.com](http://www.goodearthfarmnh.com) for directions.

**Send your order form to:** David Trumble and Linda Taylor  
 Good Earth Farm  
 52 Poor Farm Road  
 Weare NH 03281

Please make your check out to **Good Earth Farm**.

#### **Notes on Disease Resistant Vegetable Varieties**

- An asterisk (\*) means the variety has resistance to one of the major plant diseases that affects that crop.
- In the case of the **Cucurbit** family (cucumbers, summer squash, winter squash and melons), we have 5 varieties with **resistance to powdery mildew**. Powdery mildew shows as a whitish/gray powder on the plant leaves. It can be a problem during periods of high humidity.
- In the **Solanaceae** family (tomatoes, potatoes, eggplant), we have 4 varieties of tomatoes and 1 pepper variety with **resistance to early blight and/or late blight**. Early blight (despite its name) tends to become noticeable right around harvest time. It can reduce the harvest of quality fruit. Late blight is the blight that caused the great Irish potato famine. It can strike at any time in the season and causes total loss. One of the best strategies is to plant resistant varieties. Please see our website for other suggestions on how to prevent diseases in your tomatoes. These blight resistant tomatoes are only offered in 4" pots this year. These are relatively new varieties and the seeds are expensive. We hope that in a few years the seeds for these (and other new blight resistant varieties) will be a lot less expensive and we can offer blight resistant varieties in six-packs.
